

# CLEARRAY® Water Purification System Change

The CLEARARRAY® Water Purification System has recently changed. Spas manufactured after July 2016 now contain a new second generation CLEARARRAY® Unit as shown (right).

Apart from the obvious physical changes, our second generation CLEARARRAY® unit also includes a built-in ballast with indicator lights that operate in reverse to previous models. Refer to the table below for full details.

First Generation CLEARARRAY® Water Purification System Feedback (2012-8/2016)

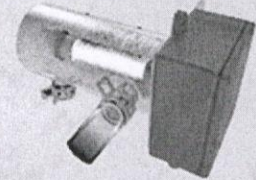

Second Generation CLEARARRAY® Water Purification System Feedback (8/2016+)

## First Generation CLEARARRAY® Water Purification System Feedback (2012-8/2016)

There are two indicator lights on the CLEARARRAY® Ballast that provide visual operation feedback:

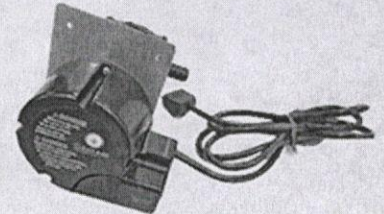

- Green & Red Light ON      ●● = Normal operation
- Green & Red Light Off      ●● = Unit is off
- Green Light On & Red Light Off      ●● = Bulb is burnt out and must be replaced (yearly bulb replacement is required).

## Second Generation CLEARARRAY® Water Purification System Feedback (8/2016+)

There are two indicator lights on the CLEARARRAY® Ballast that provide visual operation feedback:

- Green & Red Light ON      ●● = Normal operation
- Green & Red Light OFF      ●● = Unit is off
- Green Light OFF & Red Light ON      ●● = Bulb is burnt out and must be replaced (yearly bulb replacement is required).

*Note: All first generation units listed in this year's service parts catalog are limited in stock and will be replaced by our second generation units listed on this slide after our stock is depleted. Refer to your service parts catalog for ordering details.*
